PROJECTS

1. Employee Management System

Brief Description: Build a project that does something and has quantified success using REACT JS, TAILWIND CSS, JAVASCRIPT, and Postman. The description of this project spans two lines and also won an award.

Key Features :

- **Employee Management** - Add, update, and remove employee records.
- **Role-Based Access** - Manage user roles and permissions.
- **Attendance Tracking** - Mark and view employee attendance.
- **Secure Authentication** - Login system with Firebase authentication.
- **Responsive UI** - Optimized for all screen sized.

- **Tech Stack:** - React.js, Tailwind CSS, Firebase, Node.js, Express.js, MongoDB.

2. Dharam Kanta Management System

Brief Description: The Dharam Kanta Management System is a web application designed to streamline the weighing process for businesses. It allows users to record, manage, and track weighbridge transactions efficiently. The system provides a user-friendly interface, secure data storage, and real-time tracking to enhance accuracy and productivity.

Key Features :

- **Weighbridge Management** - Record and track weight data with accuracy.
- **Real-Time Data Logging** - Store and access transaction details instantly.
- **User Authentication** - Secure login and access management.
- **Responsive UI** - Optimized for all screen sized
- **Tech Stack:** - React.js, Tailwind CSS, Firebase, Node.js, Express.js, MongoDB.

EXTRA-CURRICULAR ACTIVITIES

- Actively write blog posts and social media posts (Linkedin, Instagram) viewed by over 1K+ job seekers per week to help people with best practices to land their dream jobs.
- Sample bullet point.

LEADERSHIP

- In College, I stand tall as the captain of my Cricket team, weaving the threads of unity and strength into the tapestry of victory!
